

# MiniStation™ Air

Wi-Fi & USB 3.0 Portable HDD

**BUFFALO**™

HDW-PU3

## Wireless streaming storage

Buffalo's MiniStation™ Air brings you the solution for the limited storage capacity on Smart Phones and Tablets. The MiniStation™ Air makes it possible to wirelessly read and even write files on smart phones and tablets.

Upload your data such as photos and video on the portable MiniStation™ Air while on the move. For transferring large amounts of data from desktop PC's or Laptops you can use the fast USB3.0 interface (up to 5Gb/s). The amount of data is no longer a problem, wherever you go it's always available. It's even possible to stream media to three WiFi enabled devices at the same time. This allows you to share files to streaming clients.

Thanks to the integrated WiFi, superspeed USB (USB3.0) and a capacity of 500GB you have all your data with you, wherever you go. The battery is easily charged with AC adapter or via USB on the PC and has up to 4 hours battery life.

The WiFi setup connection is easily done with WPS or AOSS. MiniStation™ Air is capable of WPA2 wireless encryption for secure data transfer

Buffalo Technology offers you a three year limited warranty on the MiniStation™ Air.
